

# CORE SKILLS IN MUSCULOSKELETAL CARE WORKSHOP

Monday 7th October 2024, 9-5pm  
The Studio, Glasgow, Scotland, G2 6EA

**A full day face to face interactive workshop, providing practical, hands-on learning with the opportunity to come together with peers to share knowledge and problem solving, focusing on the back, knee and shoulder.**

**The cost of the course is £165 which includes a delegate handbook, a certificate on completion and refreshments including lunch provided throughout the day.**

**Some of our delegates said:**

**'This course exceeded my expectations, the content and delivery was very relevant to my role, so much so I have used the information for 3 patients already this morning'.**

**'I have gained confidence in dealing with back pain and shoulder pain and the tips given on communicating what is going on with OA were great. Today I have been able to reassure a patient about her back pain and what treatments and exercise would benefit her'.**

Limited bursary places to support travel and accommodation costs are available for those travelling from remote, rural and island locations in Scotland. Please email Caron Jenkins, Professional Engagement Manager on [c.jenkins@versusarthritis.org](mailto:c.jenkins@versusarthritis.org) with estimated travel costs for more information.
