

Coronary Physiology & Intravascular Imaging (IVUS/OCT) Course

08:30	Registration	
09:00	Basics of Coronary Physiology <i>Pressure, Flow, Resistance, Regulation</i>	Dr M Baig
09:30	Coronary Flow Indices: Hyperaemic & Resting <i>FFR, iFR, RFR, dPR</i>	Dr Y Raja
10:00	How to Measure FFR & Resting Indices <i>Indications, Data gathering and Interpretation</i>	Dr M Baig
10:30	Coffee Break	
10:45	Ischemia in Non Obstructive Coronary Arteries (INOCA) <i>Indications, Data gathering and Interpretation - CFR & IMR</i>	Dr Y Raja
11:15	Recorded Cases: Interactive Session <i>Tips and Tricks</i>	Dr Y Raja/Dr M Baig
12:45	Lunch Break	
13:30	Intra-vascular Ultrasound (IVUS) <i>Technology, Indications and Stepwise Image Acquisition & Interpretation</i>	TBC
14:00	Optical Coherence Tomography (OCT) <i>Technology, Indications and Stepwise Image Acquisition & Interpretation</i>	TBC
14:30	Simulation Session - Hand-on Training (IVUS & OCT) <i>Lesion assessment, Lesion preparation and Optimisation of Stents</i> <i>Recorded Cases - Learning with Experts</i>	
16:30	Feedback and Discussion	

Coronary Physiology & Intravascular Imaging (IVUS/OCT) Course

Programme Directors

Dr Mudassar Baig

Consultant Interventional Cardiologist. Sunderland Royal Hospital
Specialised in Advanced CV Imaging (Cardiac CT and CMR)
Founder of North East Cardiology Education Program

Dr Yogesh Raja

Consultant Interventional Cardiologist Sunderland Royal Hospital

Course Venue

Hilton Newcastle Gateshead

Bottle Bank Gateshead
Newcastle Upon Tyne
NE8 2AR

25th November 2024

Registration

To register go to our website: necep.co.uk

CPD Accreditation

Course Accredited for 8 hours of activity
