# Medical Emergencies in Pregnancy

Tuesday 9 September 2025

13:00 – 16:55

Online

## Programme highlights include:

- What is “normal” in pregnancy: physiology, investigations, prescribing and reliable information sources
- Managing breathlessness, chest pain and palpitations
- Sepsis and diabetic emergencies in pregnancy
- Neurological symptoms: seizures, headaches
- Cardiac arrest in pregnancy: emergency response, debrief and communication.

This half-day online conference offers a practical and up-to-date overview for healthcare professionals across the world who are involved in the care of pregnant patients who present with medical problems. We welcome: Dr Anthony Nicholl, Prof Catherine Nelson-Piercy, Dr Bhaskar Narayan, Dr Alastair Campbell, Dr Lynn Miller, Dr That Maitland & Dr Katy Rankin.

Open to all levels, whether you work in obstetrics, hospital medicine, accident and emergency, anaesthetics or the community, this course is

designed to enhance your clinical knowledge, confidence and decision-making.

**Discount rate available to all trainees.**

Talks available to all delegates via catch-up for 28 days post event.

**CPD** +4  
Credits
